# Natasha Litherland

**Human–AI interaction research | AI, society & child safety**

Paris | French & British citizen | Available for research internships, Jan – Aug 2027

natashalitherlandwork@gmail.com | linkedin.com/in/natashalitherland

Computer engineering and design student studying how AI systems change the way people reason, discuss and decide together. I combine human–AI interaction studies and data analysis (Python, R) with foresight and programme design, and I share findings back with the people they concern.

## RESEARCH

**Universitat Pompeu Fabra**, Barcelona, Spain — Apr 2026 – Jul 2026

*Human–AI interaction research intern, TIDE group, supervised by Prof. Davinia Hernández-Leo*

- Designed and ran a study of how an LLM chatbot's personality shapes discussion and decision-making: **52 participants** (40 students, 12 educators, in 26 pairs) on video calls with the chatbot.
- Coded the conversations and ran transition network analysis in **R and Python**; research article under anonymous peer review. Wrote a participant booklet of findings.

## AI, SOCIETY & POLICY EXPERIENCE

**Until Tomorrow**, youth collective working on emerging technological risks — Aug 2026 – Present

*Founder & Lead, Child Safety & AI Fellowship (supported by the Asia-Europe Foundation)*

- Designed from scratch a 6-week fellowship teaching young child-safety advocates to apply **foresight methods** to the risks AI and emerging technologies pose to children.
- Built the website and application process; received applicants from **30+ countries**. Lead a team of 8 facilitators, advisors and coordinators.

**Sunflower** — May 2025 – Present

*Co-Founder & Product Lead: civic-tech app making public open data accessible to counter disinformation*

- Product lead and UI/UX in a three-person founding team. **2nd of 250+ teams**, Council of Europe "Democracy's Firewall" Hackathon (2025).

**UNESCO**, Paris (hybrid) — Mar 2025 – Present

*Steering Committee Member, Global Youth Community (UNESCO's largest youth coalition, 500+ members)*

- **Youth Focal Point for Europe & North America** in the UNESCO80 youth consultation (145 young leaders, 135 countries).
- One of 11 young leaders who presented the resulting **Call by Young People** and Reflection Document to the Director-General and the French Minister for Europe and Foreign Affairs (Sep 2026).
- Co-authored the Conclusions of the 14th UNESCO Youth Forum (participant, Samarkand, 2025), presented to member states.

**IGPDE, French Ministry of Economy**, Paris — Jun 2025

*Workshop facilitator*

- Ran design-fiction workshops for senior civil servants.

## PUBLICATIONS & WRITING

- Co-author, poster: "Linking the IPBES Nature Futures Framework with the Transformative Change and the Nexus assessments", World Biodiversity Forum 2026 (doi:10.5194/wbf2026-794).
- Research article on human–AI interaction in collaborative learning (under anonymous peer review).
- Co-author with ten young leaders: UNESCO "Call by Young People for a New Culture of Peace" (2026). Author: "The geopolitics of AI sovereignty", Chatham House Common Futures Conversations (2026).

## EDUCATION & TRAINING

**CY Tech & CY École de Design**, CY Cergy Paris Université, France — Sep 2022 – Aug 2028 (exp.)

*Integrated dual Master's: **Diplôme d'Ingénieur in Computer Engineering** (CY Tech) + **Master of Design, Global Design** (CY Cergy Paris Université)*

- **Félicitations du Jury** (highest honours) every semester. **Coursework:** Machine Learning, Neural Networks, Data Analysis (Python, R, SQL), Data Mining, Probability, Research Methods.
- **AIxAnimals Fellowship**, Sentient Futures (2026); **Future of AI**, BlueDot Impact (2026); **ASEF Young Leader** (2026), selected from 3,600+ applicants.

## SKILLS

- **Research:** experimental design, qualitative coding, transition network analysis, human–computer interaction, foresight, design fiction, plain-language writing.
- **Technical:** Python, R (mixed-effects models), SQL, C/C++, HTML/CSS/JS; data analysis and visualisation; machine learning (coursework); prompt engineering.
- **Languages:** English (native, Cambridge C2), French (native), Spanish (C1).
